

Veterinary Nursing Assistant

whitireiaweltec.ac.nz

New Zealand Certificate in Animal Technology (Level 5) (Veterinary Nursing Assistant)

 Level 5

 1 year, full-time

 \$5,694 (indicative for 2024 intake)

 \$25,000* (indicative for 2024 intake)

Study to become a veterinary nurse assistant and learn and practice a range of clinical skills in both classroom and workplace settings.

Flexible study options

This programme is delivered by blended learning i.e. face to face and online learning. This means some of your lessons may be delivered via Moodle (our online learning platform), which will require you to have a computer and internet access at home.

More detail about this qualification

Courses

VN4100: Introduction to Professional Practice

To enable students to demonstrate knowledge and skills essential for professional practice in veterinary practices.

VN4101: Animal Health and Husbandry

To enable students to demonstrate an understanding of animal health and husbandry and apply this while working with animals in an animal care facility.

VN4102: Reception and Client Services

To enable students to provide client and patient services in an animal care facility.

VN5100: Clinical Practice

To enable students to develop clinical practice, knowledge and skills, and use these while assisting the veterinary nurse or veterinarian. Under this subject students will learn the vital importance of animal welfare and how to maintain it amongst other things. Students will also learn about diseases both common and preventable and how to manage

them.

VN5101: Diagnostics and Hospitalised Patient Care

To enable students how to demonstrate knowledge of diagnostic and hospitalised patient procedures and practices by assisting with these in a veterinary clinic. Students will also learn how to manage and care for the hospitalized patient and laboratory work.

VN5102: Surgery Preparation and Anaesthesia

To enable students to develop and apply skills and techniques essential for assisting in surgery and with anaesthesia.

VN5103: Professional Practice

To enable students to demonstrate integration of knowledge, skills and behaviours through providing professional veterinary nursing assistance in a veterinary clinic.

Teaching and learning

To succeed in this programme, you will need to attend all scheduled on-campus classes, complete all your work placement hours, and complete your self-directed learning (most of which is online in Moodle). The programme is largely classroom based, with theory to support practical application. You will be involved in practical lessons as well as regular self-directed learning, including group work, where you will undertake a variety of tasks such as research projects and case studies.

Work placement

Students must attend and complete a minimum of 240 work placement hours during the programme. You will need to secure your own placement in a veterinary clinic to complete a minimum of 240 hours. More detailed information regarding placement requirements will be provided at interview. You will need to arrange your own travel to and from your work placements; we encourage students to carpool if possible.

Important Note:

Please note that even though the work is enjoyable, some students may find some situations emotionally distressing, such as animals that have been abused,

OR

Achieved the academic entry requirements in New Zealand or at an institution where English was the language of instruction and assessment.

Find your country's [equivalent academic entry requirements here](#)

*For fee exclusions, please see our [terms and conditions](#).

Additional requirements

Applicants must:

- be a minimum of 18 years of age at the commencement of the programme
- provide a curriculum vitae and two reference

- provide a medical declaration indicating there is no evidence of a medical condition that will impact on their ability to practice safely as a veterinary nurse assistant
- have at least three days of work experience and/or observation of animals within a veterinary clinic
- undergo a police check at the time of entry into the programme. In the event of an adverse police report, entry into the programme will be at the discretion of the Head of School. In exceptional circumstances, the requirement for a police check may be waived by the Head of School
- students need to come in with a work placement.

Applicants must attend an interview which is used to discuss:

- preparedness and commitment to study
- identification of strengths and weaknesses related to study
- good character and aptitude for working with animals and the public.

The outcome of the interview will help determine the success of the enrolment.

Where it is suggested that the applicant is not ready to undertake the programme they will be supported to explore alternative study pathways.

How to apply

Before you start your online application, you will need to have the following documentation available to upload when requested:
